## **Education**

University of Massachusetts Boston Bachelor of Science, Computer Science, December 2019 | GPA 3.125 **Bunker Hill Community College** Associate of Science, Computer Science, 2017 | GPA 3.98 - Dean's List

**Bunker Hill Community College** Certificate, Object Oriented Programming and Design, 2017

## **Technical Skills**

**Programming Languages:** Java, C++, JavaScript, Python, C, C#.

**Development Tools:** OpenCV, Three.js, WebGL, Git, AngularJS, Npm, Composer, Gulp, HTML, CSS, MySQL,

OracleDB, PHP, Emacs, JSP, XML, JSON, AWS, CLI, LAMP, Anaconda.

Coursework: Data Structures & Algorithms, Computer Graphics, Computer Vision, Operating Systems,

> Database Management, Android Development, Compilers, Object Oriented Programming, Linear Algebra, Probability and Statistics, Discrete Mathematics, Theory of Computation.

UNIX, Linux, Ubuntu, CentOS, Windows, MacOS. **Operating Systems:** 

## **Projects**

### UMBrella Search - JavaScript, HTML, CSS - 2019

- Deploy Amazon Web Server and developed accompanying software to enable patrons to share library records via Text Message.
- A Node.js, Gulp based development environment.

#### Ezproxy Log Parsing Tool - Java - 2019

• Created Java tool to parse 5 years of Ezproxy log files with over 50 GB of data.

#### EduSmartLearn - Harvard HackED - JavaScript - 2018

- Expert system using a decision tree to facilitate consumer behavior.
- Mock Stock Android App School Project Java 2017
  - Design modern GUI in XML using fragments.

- Develop custom Angular components to enhance library search functionality.
- Enhance user experience via UI customizations and integration with third party APIs.
- Enhance security using MD5 encryption to anonymize user names.
- Deploy WordPress site with embedded Plunker expert system widgets.

## • Implement binary search tree for data per project spec.

# Work Experience

#### University of Massachusetts, Boston, MA | Software Developer | January 2019-Present

- Web application developer for Library Systems and Discovery Services.
- Analyze UMBrella usage data by parsing log files and preparing data visualizations.
- Create written documentation and test new features in sandbox and production environments.
- Administrator of AWS mail server and Alma-Illiad sync server.

### Tatte Bakery, Boston, MA | Barista | January 2019-Present

- Provide customer service with high volume of guests.
- Clear verbal communication with colleagues.

## Back Bay Sandwich, Boston, MA | Supervisor | 2011-2018

• Certified TAP food safety manager.

• Time management and multitasking.
